

DIACOM CORPORATION EMBARKS UPON THE LARGEST EXPANSION IN COMPANY HISTORY

December 29, 2021 –

DiaCom Corporation is pleased to announce the largest and most aggressive expansion in our company history. The expansion includes the purchase and installation of 12 brand new molding presses of various sizes and tonnages, multiple trim presses, and several other pieces of new plant equipment. The expansion also doubles the size of our Plant 2 facility. The new equipment, in addition to two new 1200-ton (48”x 48”) 150-ton presses installed recently, will put us in the best possible position to facilitate our customers’ growing needs moving forward.

Included in the DiaCom 2022 expansion plans, is installation of a new, dedicated clean room in Plant 2 to aid in the manufacturing of critical medical parts in partnership with key medical equipment manufacturers of heart pumps, kidney dialysis machines, ventilators, respirators, and other

vital equipment. (Our project engineers routinely work closely with these customers to transform applications into fully functioning prototypes, and ultimately, into production parts.) Our experience and background allow us to cost-effectively provide diaphragms that regularly exceed our customers’ expectations.

DiaCom Corporation takes pride in our ability to manufacture industry-leading diaphragms, gaskets, and seals. We look forward to your inquiries and can be reached on our website at: www.diacom.com/contact-us.

Diaphragm Design & Manufacturing Leader

DiaCom Corporation, an ISO 9001 and AS9100 certified company, is a recognized leader in the design, manufacture and application of innovative, high performance molded diaphragm seals. DiaCom serves a variety of markets worldwide including industrial, automotive, aerospace, food processing, water control and conservation, medical instrumentation, appliances and others. DiaCom offers state-of-the-art diaphragms designed for cost effectiveness, ease of installation, durability and high performance characteristics.
